EXPERIENCE

- **Research & Development Intern** Dec. 2024 - Feb. 2026
STSARC Pvt. Ltd
 - Design AI system architecture for an EdTech platform by contributing to the design of the RAG pipeline, the evaluation of SLM vs LLM, and backend workflows, optimizing for 55–60% lower inference cost and sub-second response latency targets
 - Authored end-to-end SRS and product specs covering 20+ functional & non-functional requirements, prioritized 4 core features, and finalized a scalable full-stack + AI tech stack, reducing future rework by ~25%
 - Owned a production frontend PR, implementing a reusable Radio Group UI component, improving UI consistency and cutting similar component dev time by ~20%

PROJECTS

- **CareFlow** Mar. 2026 - Apr. 2026
GenAI Academy APAC Edition Cohort1 Hackathon 2026 GitHub
 - Secured Top 100 at Google Cloud Gen AI Academy APAC - 2026, Cohort 1, out of 192,660+ developers and 66,646+ organizations across 12 APAC countries, hosted by Google Cloud and Hack2skill
 - Powered by the Google ADK, we built a "Root Agent" that acts as a manager, delegating tasks across 8 specialized sub-agents using advanced patterns: Parallel Execution, Sequential Execution and Loop Execution
 - Used MCP Tools: Calendar MCP (appointments), Gmail MCP (caregivers), MCP Toolbox by Google Cloud Platform (DB queries)
 - Deterministic Safety Layer: Implements a 2-layer scope filter and hardcoded clinical guardrails (e.g., maximum dosages) that the LLM cannot override
- **NeuroTicker** Apr. 2025 - May 2025
Perplexity Hackathon 2025 & GenAI Dev Hackathon 2026 neuroticker.vercel.app/
 - 2nd Place Winner @ GenAI Dev Hackathon 2026, a global month-long student only Generative AI challenge hosted on Devpost with 540+ teams worldwide — for our project NeuroTicker, earning recognition worth \$435
 - Developed an AI-based Stock Market Analyst that helps beginners learn and invest in the Stock Market
 - It features AI Chat-bot which would help to understand stocks, analyses the current user market position and provide key finance tips
 - It incorporates Mapboard to help user understand the financial situation around the world
 - It features Telegram Real Time Alerts and Notifications for market news and changes
 - Tools Used: React, TypeScript, Perplexity API, Alpaca API, Mapbox API, Supabase
