Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.E. IT	D Y Patil College of Engineering, Pune	9.23 (Current)	2023-Present
B.Sc DS&AI	Indian Institute of Technology, Guwahati	4.22 (Current)	2023-Present
Senior Secondary	HSC Board	85.17%	2023
Secondary	CBSE Board	94.4%	2021

Experience

- **Research & Development Intern** *Dec. 2024 - Feb. 2026*
  STSARC Pvt. Ltd
  - Design AI system architecture for an EdTech platform by contributing to the design of the RAG pipeline, the evaluation of SLM vs LLM, and backend workflows, optimizing for 55–60% lower inference cost and sub-second response latency targets
  - Authored end-to-end SRS and product specs covering 20+ functional & non-functional requirements, prioritized 4 core features, and finalized a scalable full-stack + AI tech stack, reducing future rework by ∼25%
  - Owned a production frontend PR, implementing a reusable Radio Group UI component, improving UI consistency and cutting similar component dev time by ∼20%

Projects

- **NeuroTicker** *Apr. 2025 - May 2025*
  Perplexity Hackathon 2025 neuroticker.vercel.app/
  - Developed an AI-based Stock Market Analyst that helps beginners learn and invest in the Stock Market
  - It features AI Chat-bot which would help to understand stocks, analyses the current user market position and provide key finance tips
  - It incorporates Mapboard to help user understand the financial situation around the world
  - It features Telegram Real Time Alerts and Notifications for market news and changes
  - Tools Used: React, TypeScript, Perplexity API, Alpaca API, Mapbox API, Supabase

- **React Jobsite** *Oct. 2024*
  Personal Project Github
  - Developed a React Job Listing Site specifically designed to connect React developers with recruiters
  - Built a responsive frontend using Vite and React, leveraging JavaScript as the primary language for application logic
  - Integrated Tailwind CSS for styling and UI design, utilizing PostCSS for configuration management
  - Implemented a mock backend using JSON-Server to handle data operations and simulate API interactions on port 8000

Skills

- **Programming**: Python, C/C++, Java*
- **Web Development**: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB , React
- **Tools/Frameworks**: Google Cloud Platform, Vercel, Netlify, Git, GitHub, VS Code
- **Operating Systems**: Windows, Linux* ** Elementary proficiency*

Key courses taken

- **Mathematics**: Linear Algebra, Basic Calculus, Discrete Maths, Probability & Random Processes, , Basic Statistics, Statistical Inferencing, Optimization
- **Core Courses**: Data Structures & Algorithms, Object-Oriented Programming, Relational Database Management System, Computer Networks, Operating Systems, Computer Systems and Tools, Machine Learning

Positions of Responsibility

- **Club Service Director**, Rotaract Club of the D Y Patil College of Engineering *Sep. 2024 – Jul. 2025*
  - Organized and Managed RunForCure Marathon 2025
- **Technical Coordinator**, Information Technology Engineering Student Association (ITESA) *Aug. 2024 – Jun. 2025*
  - Managed Technical domain events for ITESA and collaborated with team to build Department Webpage
